

Box Gutter 175mm

Box Gutter 175mm is a popular rainwater system solution that can be used in either commercial or residential applications. It is able to handle larger volumes of water, and is easy to clean out if required. Box Gutter 175mm can be fixed either with internal or external brackets and is available in Zinalume, Galvsteel, Colorsteel Endura and Colorsteel Maxx.

Cross-sectional Area: 19250mm²

Catchment Area of Roof v Cross Sectional Area of Gutter

Note: The graph is based on a rainfall intensity of 100mm / hour and roof pitches less than 10 degrees. For more information on roof catchment areas and the effect of gutter cross sectional areas download the document on Roof Drainage
