COLORSTEEL ROLLFORMED ROLLER DOOR

For Light Commercial Applications

Key Product Features

- Continuous roll formed curtain
- Available in Zinalume or Colorsteel
- 0.4 or 0.55 gauge steel
- 40mm or 63mm Guides
- Widths up to 4800mm
- Keyed alike centre locks available
- Mini storage locks can be fitted
- Easily operated manually or automated
- Standard **Colorsteel** colors available

MINI STORAGE DOORS

*Colours need to be confirmed from steel samples at time of ordering.
Above chart is only an approximation of the actual colour*

ALUMINIUM SLAT ROLLER DOOR

Key Product Features

- Extended aluminium interlocking slats
- Ideal for large openings and marine environments
- 40mm or 63mm Guides
- Available up to 5700mm wide
- Nylofelt strips for smooth, quiet operation
- Powder-coat finish in a wide variety of colours

STEEL ROLLER SHUTTERS

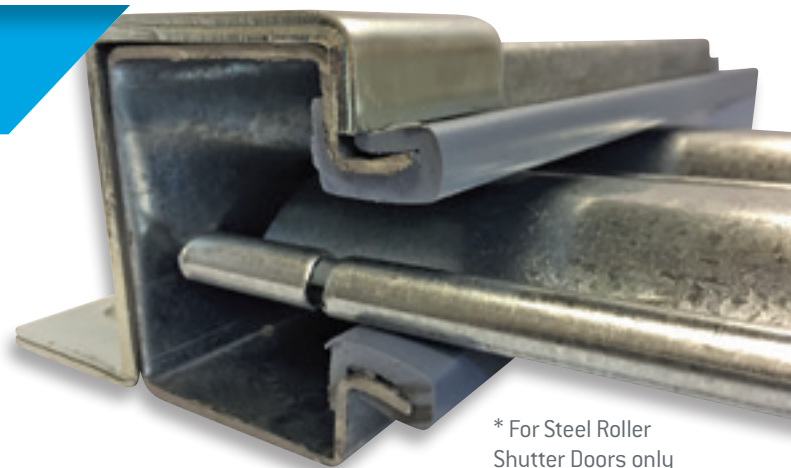

For Industrial and Commercial Applications

Key Product Features

- Available in galvanised or large range of powdercoat colours
- Up to 6.m high x 6.0m wide as standard (larger sizes on request)
- Individual rollformed interlocking slats that can be replaced if damaged
- Windlock guide & clip option

WINDLOCK MULTI GUIDE

* For Steel Roller Shutter Doors only

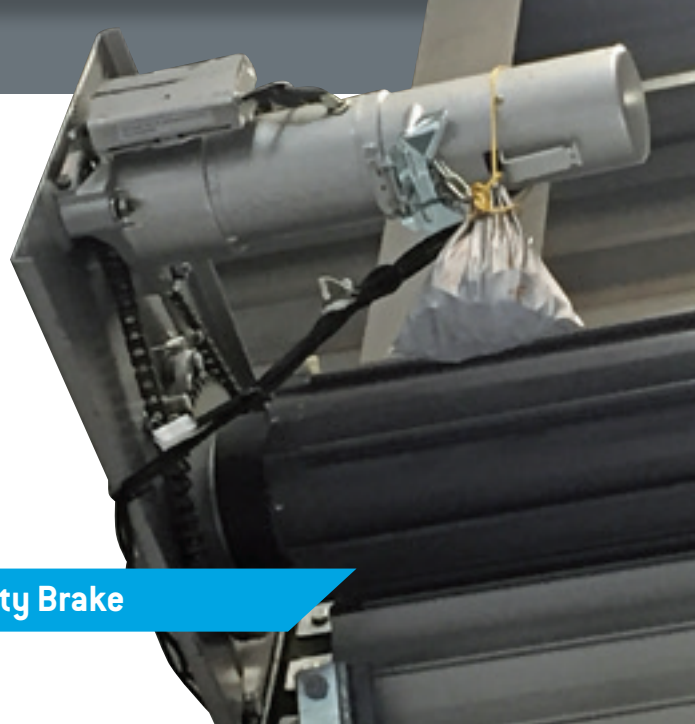

Gone are the days of steel slats running in steel guides. P.V.C wear strips provide smooth, quiet and maintenance free performance. Strong rollformed guide can be used for standard and windlock applications.

OPERATING OPTIONS

SPRINGLESS MOTORISED

- For motorised option a springless barrel is driven by a powerful **ECR400** motor (capable of lifting 400kg)
- Available in single or three Phase
- Less maintenance as no springs and few moving parts
- Chain break protection device
- Safety brake (operates like a seatbelt mechanism) to prevent free fall of door curtain in unlikely event of motor failure.
- Built in manual chain operation when power is off
- Option of remote control with 'Photo Eye' protection

Chain Brake Lever

Safety Brake

SPRUNG BALANCED - MANUAL - MOTORISED

- Customised springs to ensure perfect balance
- Ideal for manual operation or very large doors

Jielong GKH Motor - Three or single phase
- Ideal for Sprung Balanced Doors

All motor options can be fitted with remote controls and photo eye beams.
